Dear hiring company,

If you are looking for a lazy, one dimensional worker, then this is not your stop! If you however are looking for a dedicated worker full of energy with an awesome work ethic, then you have come across the perfect candidate. I admire hard work, as I am disciplined from working with the Army, JROTC. I am dedicated and have going on 3 years of warehouse experience.

You're looking for someone who can handle a fast paced working environment. You are also looking looking for someone that can carry out tasks with adequate measures and that is exactly what I am looking to do as a general laborer with your open job opportunity. As a general laborer I have skills with pallet jacks, Mail machines, Rf scanners, Running the floor, Loading trailers, Unloading trailers, Package sorting and Pallet stacking.

I wish to be certified on the forklift and I know that I am more than capable of gaining a licence.

I look forward to being in touch with you about joining your company, in the meantime my resume is attached. References are available upon request.

Thank you for your time,  
Kianna Atkins
